The Streetblimps team revved up their Mobile Billboard engines to take part of Iowa Speedway's annual races! Although, the MBB didn't actually compete, it did, however, catch the eyes of many raceway enthusiasts.

The 22'x10' billboard gave the illusion of life size racecars zooming down the track. Onlookers couldn't help but take note of these hot rods inspiring them to take part in this 2016's adrenaline filled sporting event.
