

# Community Colleges Esports Gaming & Education

# Esports Pod

- ❑ The Esports pod is a gaming pod created by Sports Media in order to ensure a balanced playing field in Esports gaming
- ❑ Every Esports pod will have the same equipment & internet speeds in order to ensure that the competitions are won based on skill, not superior equipment
- ❑ Designed for sponsorships and maximum advertising visibility
- ❑ Ensuring proper broadband controls for satellite qualifications or league tournaments
- ❑ Can be used for initiating College Scholarship Program
- ❑ Our goal is to deploy the Esports pod to your community college for your Esports gaming team or for the delivery of educational material

# Pod Perks

- ❑ High speed internet
- ❑ Comfortability offered at its finest
- ❑ Uses common 110V plug-in or Wi-Fi connect
- ❑ Camera's will be also included in the pods which will allow gamers to record content
- ❑ Everything is adjustable & comes with a gaming chair to ensure comfort for a gamer
- ❑ All computer equipment is self-contained and compact no messing with bulky cords and tripping hazards
- ❑ Can be used for educational opportunities that are limitless including aeronautical and vocational application
- ❑ We can help community college gamers obtain sponsors all the way until they make it to the NCAA

# Education Realm

- ❑ Our education system is in desperate need to revamp. Textbooks are outdated & students now identify with digital learning. This is an exciting opportunity to transform the way we deliver education
- ❑ Student are willing to spend hours at a time gaming or on the phones
- ❑ We hope to use our Esports pod in order to revolutionize how kids our taught
- ❑ We can offer educational programs that not only teach concepts but teach problem solving
- ❑ We can also teach real world examples in the workforce such how to develop a home & become a developer, we can teach you how to go through steps such developing land and architectural designs
- ❑ These educational games will be competitive in order to help students grow and become interested
- ❑ Most Esports scholarships currently offer students \$500-\$8,000 annually but schools are starting to offer full tuition as Esports grows
- ❑ The individuals who excel within these schools at the Esports tournaments can be offered scholarships to go onto college
- ❑ According to the Department of Education there are 1,462 community colleges in the U.S. Esports Pods can be used to network and collaborate between institutions both for learning and competition.
